

Genetic Chile

**A film that
should be seen
by everyone
who eats.**

**A look at the world of
genetically modified
foods through the lens
of New Mexico's iconic
chile pepper plant.**

Directed by Christopher Dudley
PBS, FRONTLINE WORLD, POV

GEneticChile

American Conservation Film Festival – Official Selection
New Mexico Filmmakers Festival – Best Documentary
Culture Unplugged Film Festival – Official Selection
Life Sciences Film Festival – Special Selection
Albuquerque Film Festival – Official Selection

*Corporate scientists and
governments promote them,
multinational chemical
companies profit from them,
but independent scientists and
the World Health Organization
raise harrowing questions.
Are Genetically Modified
seeds the answer to hunger
or a scheme to consolidate
resources for profit?*

FREE SCREENING IN VENTURA

**Wednesday, October 5th
Screening starts at 7 PM, Runtime 1 hour
The Topping Room**

EP Foster Library , 651 E Main St, Ventura
